

Wine Grape Pricing and Utilisation Survey

# New South Wales 2006

## 2006 REGIONAL PRICE REPORT

Produced by the New South Wales Wine Industry Association Inc  
PO Box 1638  
GRIFFITH NSW 2680  
Ph 02 6964 4762  
Fax 02 6964 3526  
[www.nswwine.org.au](http://www.nswwine.org.au)

This survey has been undertaken by the New South Wales Wine Industry Association Inc to gather information on grape purchases in the major NSW regions in vintage 2006, and obtain forecasts of winery committed (contracted) intake and grape demand over the ensuing five years to vintage 2011. This information has been produced as an aid to industry planning, and to assist policy-makers in their dealings with the wine industry at both the local, State and National levels.

Part 1 of the Survey is the publication of prices paid for grapes in the major regions.

The Survey excludes fruit grown in the Murray Valley area of New South Wales around Mildura which is included in separate survey conducted by the Victorian Department of Primary Industries.

This is the eighth survey conducted for New South Wales. Survey data was collected using the form developed by the Australian Wine and Brandy Corporation for the Australian Regional Winegrape Crush Survey to ensure common collection methodology. This allows regional and State data to be aggregated to form a national position. National figures are published by the Australian Wine and Brandy Corporation. Data has been collected in accordance with the NSW geographic indications Regions and Zones.

#### Survey coverage

Survey questionnaires were sent to all wineries who purchased grapes from within NSW. In terms of tonnes produced, coverage was high with non-response estimated at approximately 2% of overall tonnages. It is believed that pricing data should be quite reliable as most under-enumeration would occur in the winery grown component.

The survey identified a total crush of 389,868 tonnes of NSW fruit (excluding the NSW Murray Valley area).

Regional non-response is estimated to be of the following magnitude;

Canberra District	257t
Cowra	35t
Orange	745t
Mudgee Regions	411t
Rest of Central Ranges Zone	15t
Hunter Valley Zone	4,456t
Riverina Region	0t
Other	3,181
TOTAL	9,100t

**It should be emphasised that the figures in the tables are the sum of the survey response, and readers should be aware of the impact of non-response. It should be noted that the survey is voluntary. The estimated total crush of NSW grapes (excluding the NSW Sunraysia) for 2006 estimated to be almost 400,000 tonnes which is 10% more than 2005.**

#### 2006 Pricing Survey

All wineries that purchased grapes in New South Wales were sent a standard questionnaire seeking information by variety on tonnes purchased, total purchase value per variety as well as highest and lowest price per tonne paid. Wineries were asked to identify the region of origin of the grapes purchased. Total purchase value is the total dollar amount paid for all grapes and is based on the weighbridge price excluding freight.

The following tables provide the results of this survey, by major region.

Regional groupings in this publication are:

<b>NSW Total</b>	<b>page 3</b>
<b>Canberra District</b>	<b>page 4</b>
<b>Cowra</b>	<b>page 5</b>
<b>Central Ranges –Other</b>	<b>page 6</b>
<b>Hunter</b>	<b>page 7</b>
<b>Mudgee</b>	<b>page 8</b>
<b>Orange</b>	<b>page 9</b>
<b>Riverina</b>	<b>page 10</b>
<b>Southern NSW Zone - other</b>	<b>page 11</b>
<b>Western Plains Zone</b>	<b>page 12</b>

Some smaller regions have not been published due to lower response rates.
